Prospective Student - FAQ

- Do I have to do TOEFL even though I did my undergraduate studies in the United States? No. If you graduated from a U.S. university or are a U.S. citizen.

- I scored 152 and 3.5 (which is the minimum requirement) on my GRE. Do you recommend that I retake it? More focus is placed on the quantitative reasoning scores. This score is on the lower end. Also, when did you take your GRE? If it’s been over 5 years, it may be a good idea to retake it to improve your QR score.

- The department minimum requirement shows writing score in GRE must be 3.5 but my score is 3 only. We are flexible on the writing component. More focus is placed on the quantitative reasoning scores. Please feel free to apply.

- Is my tuition portion due upon admission or a payment arrangement is possible? Payment is due at the start of each semester. Payment installment plans are available. You will need to contact Student Accounting directly with further questions: [http://studentaccounting.unt.edu/payment-installment-plan](http://studentaccounting.unt.edu/payment-installment-plan)

- Is there health insurance coverage available for students? What are the costs? Insurance coverage is available for approximately $160 a month.

- Can I get admission to the graduate physics program with undergraduate degree in engineering? You will need undergraduate leveling courses in Physics. If you decide to do that, please formally apply. Your application will then be reviewed along with others before a decision will be made.
